70 YEARS OF INNOVATION

With unrivalled expertise in instant filtered boiling, chilled and sparkling water taps, Zip Water is known globally for being home to the world's most advanced drinking water appliances.

Founded in Australia in 1947, we've always been innovators, advancing and perfecting our drinking water technology for decades. Today, we're proud to provide workplaces, in over 70 countries across the world with the purest tasting water possible from our range of Zip HydroTaps.

Welcome to the Zip HydroTap family.

WHY ZIP HYDROTAP IS THE WORLD'S MOST ADVANCED DRINKING WATER SYSTEM

WATER – ANY WAY YOU WANT IT

One appliance, every option. The Zip HydroTap provides instant filtered boiling, chilled still and sparkling water, as well as unfiltered hot and cold. Streamline function and create space in your staff breakroom. Provide stylish, superior hydration and hot beverage service in boardrooms, meeting rooms and reception areas. The choice is at your fingertips.

CONVENIENCE WITH ADVANCED TECHNOLOGY

Zip HydroTap's superior filtration and compact, efficient design makes it the perfect water solution for any workspace.

Remove kettles from your benchtops. Eliminate refrigerated bottled and sparkling water. Save space, energy and money. Forget deliveries and storage of water cooler bottles.

The Zip HydroTap is a convenient and practical way to offer your staff, customers and visitors fresh, pure tasting water – instantly and safely. What's more, its highly efficient functionality and on-demand instant water make it an eco-friendly, minimal waste option for your workplace.

THE WIDEST RANGE OF DESIGNS AND FINISHES

CLASSIC*

ARC

CUBE

STANDARD FINISH OPTIONS

Whether you opt for a classic Bright Chrome or stylish Matte Black, our range of timeless standard finishes have been designed to sit seamlessly in a wide range of kitchen designs, from contemporary to traditional.

*Classic HydroTap designs only available in standard finish options

CELSIUS ARC

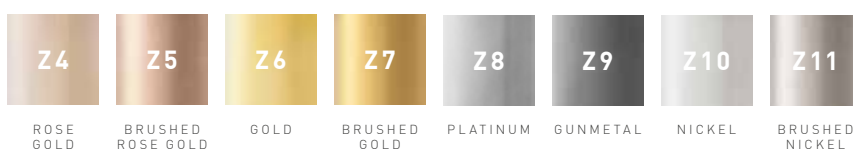

CELSIUS CUBE

CLASSIC ALL-IN-ONE*

CELSIUS ALL-IN-ONE

PLATINUM FINISH OPTIONS

Taking the HydroTap from a drinking water system you can't live without to a striking design accessory, our Platinum Finish options include eight stylish metallic finishes, each stunning in its own right.

PURE-TASTING DRINKING WATER

ADVANCED FILTRATION

Our MicroPurity™ system combines activated carbon and 0.2 micron sediment removal technology into one easy to change, hygienic cartridge.

REMOVES CONTAMINANTS

Zip Genuine Filters not only remove taste, odour, dirt, contaminants and heavy metals such as lead from the water, but also up to 97% of chlorine and 99.9% of microbiological cysts if present.

HEALTHIER WATER

At Zip Water, we put water quality at the heart of our offering, making each and every glass healthier and tastier for you.

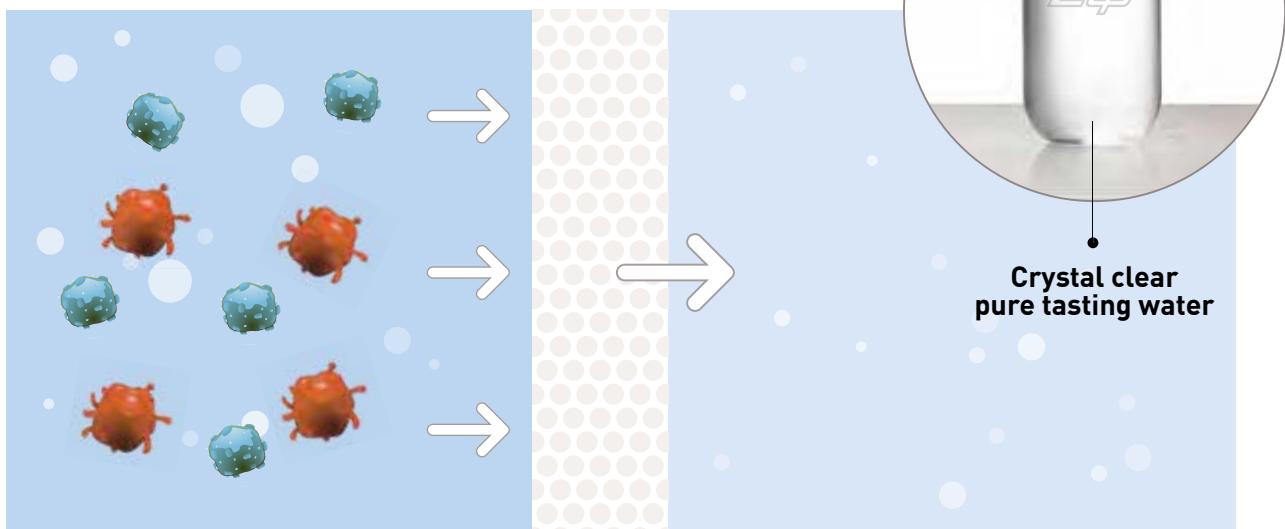

NSF* certification is recognised globally as the premium independent mark of quality.

**MICROPURITY™
FILTRATION**

SAFELY FILTERS DOWN TO **0.2 MICRON**

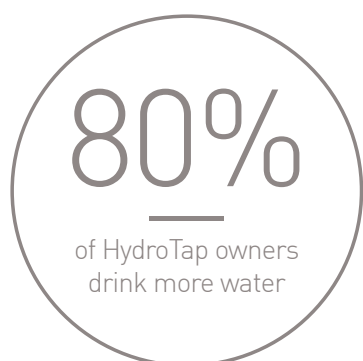

Note: There are geographic areas in Australia where drinking water contains high total dissolved solids. For these areas we recommend pre-filtering or use of a Zip MicroPurity 3 micron filter.

*NSF is a trademark is NSF International.

WATER FOR A HEALTHIER WORKPLACE

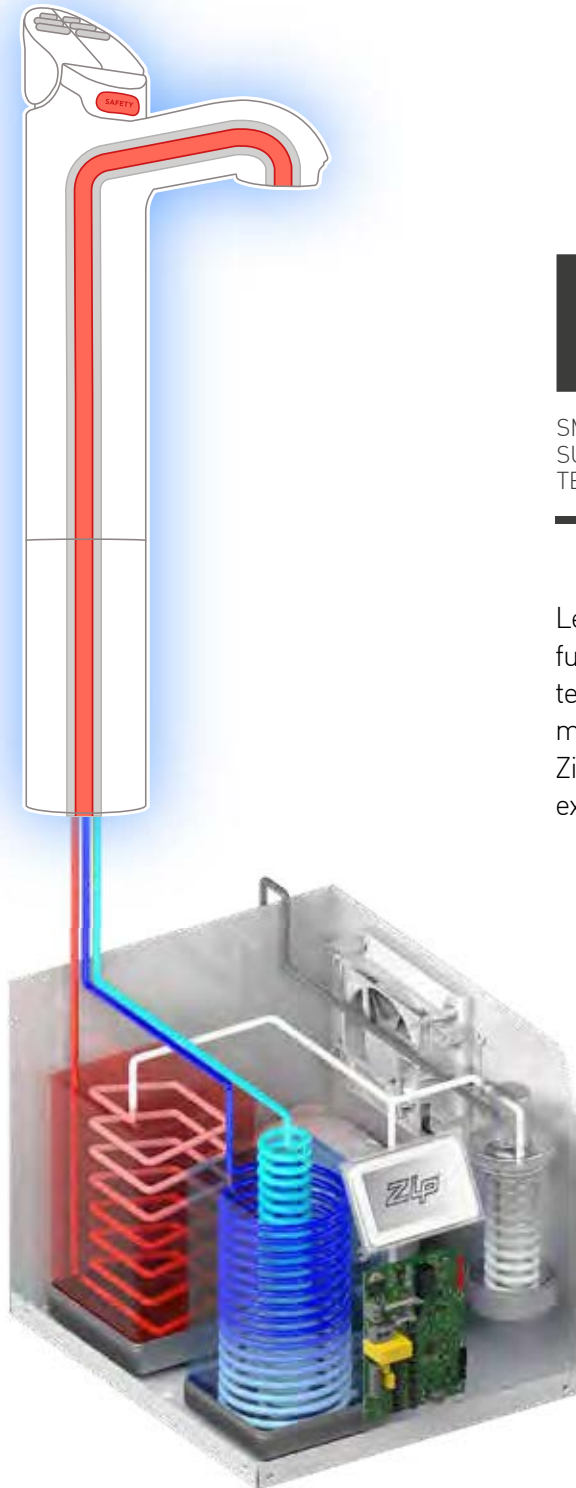

Workplace wellness and wellbeing is vital to your team remaining engaged and productive. Water plays a significant role in the function of the brain, so ensuring your staff have access to fresh, healthy water is essential.

Zip Water research shows that 80% of Zip HydroTap owners drink more water than before*. Drinking more water offers a range of benefits, such as better concentration and less fatigue. Plus, the increased activity from getting up and moving around increases circulation, encourages the elimination of waste and toxins, and reduces the damaging effects of long periods of inactivity.

Zip HydroTap meets all your workplace water solution needs, in one elegant, easy to use system.

*Research carried out to 340 existing Zip HydroTap customers

G4

SMART.
SUSTAINABLE.
TECHNOLOGY.

Leading the way in both performance and functionality, Zip Water's fourth generation G4 technology is truly cutting-edge. Perfected over many years of development and innovation, the Zip HydroTap G4 is easy to maintain, but its exclusive features save energy, water and time.

1. POWER-PULSE TECHNOLOGY

Our innovative Zip Power-Pulse technology maintains stored boiling water to within 0.2°C of your set temperature, meaning no energy or time is wasted waiting for water to boil.

2. UNIQUE SAFETY FEATURES

Zip boiling water is delivered smoothly and the tap has a safety lock to deliver boiling water.

3. AIR-COOLED SYSTEM

Our unique air-cooled refrigeration system is 100% water efficient.

4. AUTO-DIAGNOSTICS

An advanced auto-diagnostics system continuously monitors your HydroTap's performance.

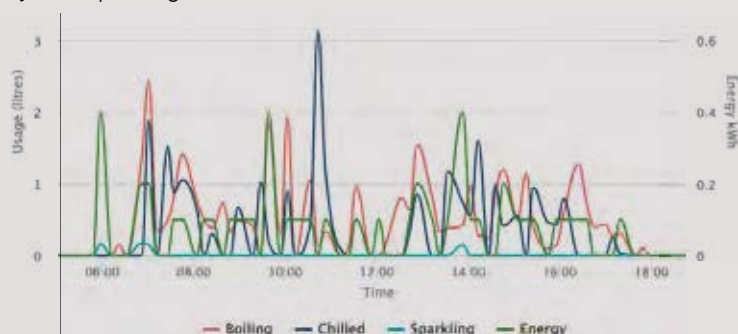

5. MICROPURITY™ FILTRATION

Inbuilt 0.2 micron NSF-certified filter incorporating innovative silver ion antimicrobial technology means healthier, pure tasting water for your workplace.

ADVANCED OPTION AVAILABLE

HydroTap Usage Timeline

ZIP ASSIST™ WIFI

Simple and secure to use, easily monitor the performance of any Zip HydroTap, from any device, anywhere in the world. For more information see zipwater.com/zip-assist

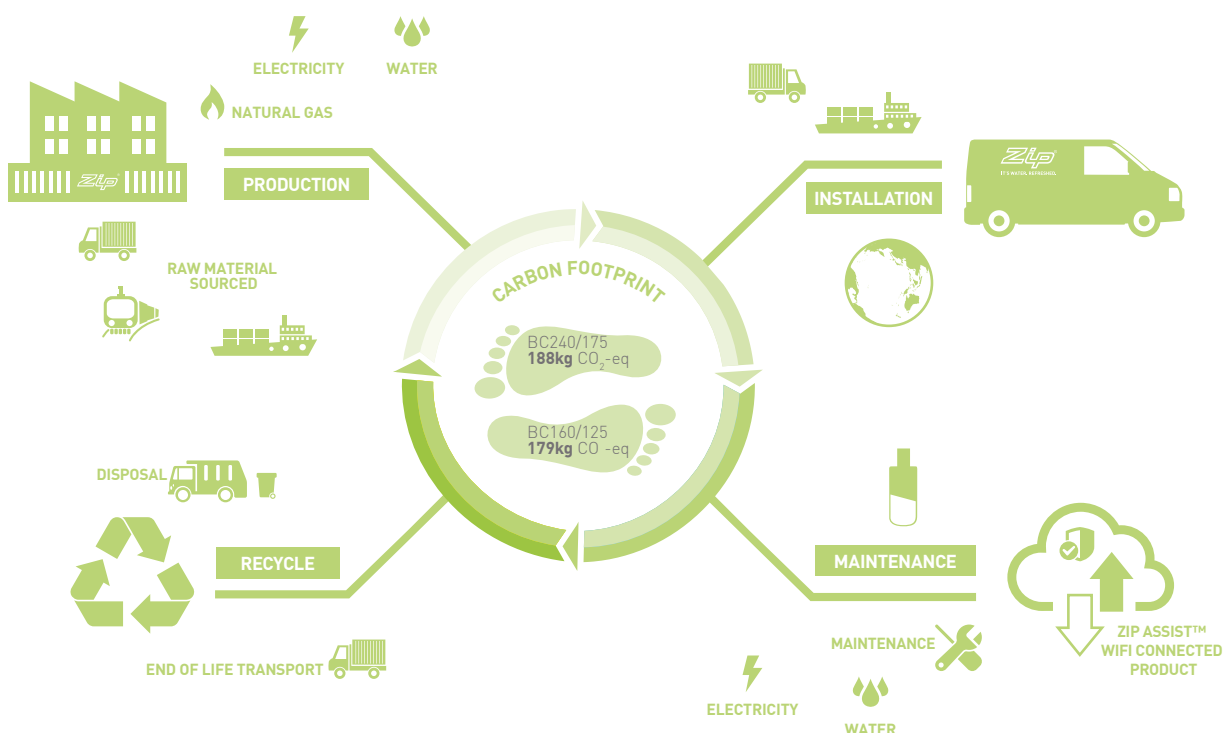

THE SUSTAINABLE CHOICE

ENVIRONMENTAL PRODUCT DECLARATION

In another first for the world leaders in instant drinking water systems, Zip has released an internationally recognised and independently verified EPD for its HydroTap products. Developed with leading sustainability consulting company, thinkstep, it's the first EPD for an electrical product in Australasia, clearly demonstrating Zip's innovative and forward-thinking approach. The HydroTap EPD details the environmental impact of the product throughout its lifecycle, from the production and processing of raw materials, to manufacturing, distribution, installation, ongoing usage, maintenance and filter changing, right down to the end of the product's life.

THE LIFE OF A ZIP HYDROTAP

Responsible manufacturing

Organisational dedication to sustainability

ISO 14001

Low impact design

Complies with RoHS EU Directive 2002/95/EC

World class environmental credentials

Providing transparent product life cycle impact

Innovative air-cooled technology

Making HydroTap 100% water efficient

Smart energy saving modes

Time switch adheres to the Building Code of Australia

Advanced energy management system

Reduces power consumption by up to 30%[†]

Lowers energy consumption

HydroTap costs around \$2.97 per week to operate*

Eliminates the need for bottled water

Reducing your environmental impact

Australians buy
over 580 MILLION
litres of bottled
water a year.

Much of which ends
up in **LANDFILL** and
on our **BEACHES**[#]

ZIP HYDROTAP COMMERCIAL

CLASSIC RANGE

CLASSIC

Offering the choice of instant filtered boiling, chilled or sparkling water, or all three in any combination, the iconic design of the Classic HydroTap remains a much-loved and popular choice suited to any workplace.

CLASSIC WITH MIXER

Designed for situations with only a cold water supply. Perfect for workplace kitchens that require a mixer tap and a Zip HydroTap in the same area as well as hot water to the sink.

CLASSIC ALL-IN-ONE

The Classic HydroTap All-In-One offers filtered boiling, chilled and sparkling water, plus unfiltered hot and cold water from a single tap.

CLASSIC INDUSTRIAL

For Industrial and Correctional Facilities. Designed with strength and security, this Zip HydroTap is proven under the toughest industrial and institutional conditions.

CLASSIC FOR ACCESSIBILITY

For users with limited mobility or impaired vision.

ZIP SPARKLING CO2
2.6KG REPLACEMENT CYLINDER

Available exclusively through the Zip
HydroCare CO₂ exchange program

AIR-COOLING IS THE ENVIRONMENTALLY RESPONSIBLE CHOICE

Image shows BC 160/125 installed with optional vent tray 93540

AIR-COOLING

Air-cooling is energy efficient and does not use any water. This means savings for your clients and greater sustainability for the planet.

DID YOU KNOW?

The Zip HydroTap's innovative G4 management system and fan-forced micro channel condenser removes excess heat by moving between 0.9 and 1.1 cubic metres of warm air per minute.

Innovative air-cooled technology

100%

Water efficient

Easy installation

Simple installation with vent tray removes the need to cut doors.
